Simple and secure online payment solutions for your business

A Sage Pay account offers your business payment and risk management solutions from one online account

Salary & Supplier payments:

Process salary and supplier payments directly from your Sage Pay online account or use the secure integrated file transfer capability in your Sage software to send the payments to Sage Pay.

Debit Order Collections:

You have access to three debit order collection services on your Sage Pay account which allow you to collect once off or recurring payments from your customer's bank accounts or credit cards.

Pay Now:

Sage Pay offers multiple payment streams to accept funds through one convenient service. Our Pay Now service includes acceptance of Instant EFT, Bank EFT, Credit Card, cash payments, Masterpass™ and Visa Checkout. Sage Pay is also already integrated to specific versions of Sage software.

Risk Reports:

With a Sage Pay account you now have access to risk management services. This includes credit checks from multiple credit bureaus and CIPC.

Integrated Sage software ensures salaries get paid at the same time, every time

Sage Pay brings you integrated salary and risk management solutions directly from your Sage VIP software at a click of a button

Improve efficiency

Upload secure salary payments directly from your payroll software to your Sage Pay account. No risk of exposing payment information on your desktop.

Save Money

Take advantage of our reduced transaction fees when you process salary payments directly from your Sage VIP software.

Reduce validation errors

Bank account validations ensure that valid numbers have been captured, reducing the risk of rejected transactions when loading payments.

Lower your risk

ID number verification checks that the correct employee is being paid as registered and verified by the Department of Home Affairs.

Reduce payroll fraud

Bank account verification eliminates payments being made to the incorrect employee, by receiving confirmation from the bank that the bank account is valid, open, active and belongs to the specific employee.

Secure processing

Payment batches can be locked when uploading, ensuring that payroll data can't be edited in your Sage Pay account. Payroll and Sage Pay will always match 100%
